General Comments:

~~**8. Which was the least helpful session? Why?**~~

all sections were helpful. The presentations were well-organized in that we were led from how to use the utilities to greater details about the code. Even for someone, such as myself, who does not do much coding, the level of presentation was fine. The explanation of the concepts behind DIVERSE was great.

7. Which was the most helpful session? Why?

No specific session - the general capabilities of the CAVE, demonstration of the ease of use of the APIs were very informative. Allowed me to get a basic idea of what would be involved with implementing a project.
